RESOLUTION
by the
Vance County Board of County Commissioners
To Redefine the Vance County Commissioner Electoral Districts

WHEREAS, pursuant to a Consent Judgment and Order in the matter of Margaret Ellis, et al. vs. Vance County, North Carolina, E.D.N.C., No. 87-28-CIV-5, entered on July 28, 1987 by the Honorable Franklin T. Dupree, Jr., Vance County is divided into seven electoral districts for the purpose of nominating and electing persons to the board of commissioners; and

WHEREAS, this Board finds that the population among the Vance County electoral districts was not equal and the same should be redrawn so that the quotients obtained by dividing the sum of the population of each district by the number of commissioners apportioned to the district are as nearly equal as practicable, and each district shall be composed of territory within a continuous boundary; and

WHEREAS, North Carolina General Statute Section 153A-22 provides that when such inequality of population among electoral districts exists, that the Board of County Commissioners may by resolution redefine the electoral districts; and

WHEREAS Session Law 2021-56, Senate Bill 722, Section 1.4 directs the board of county commissioners to review and revise its electoral districts in accordance with State and federal law, and adopt a resolution containing the revised electoral districts on or before November 17, 2021, to be effective upon adoption; and

WHEREAS, the Vance County Board of County Commissioners did on September 7, 2021 discuss the need for redistricting and scheduled public input/scoping sessions to be held throughout the county to gain public input on the boundary lines for the new electoral districts. In addition to the public input/scoping sessions, electronic copies of maps were posted on the County website for free unrestricted access to any member of the press or public on October 20, 2021; and

WHEREAS, on September 28, 2021 a public input/scoping session was held at the Vance County Commissioners meeting room which is located within the City of Henderson, and is also in the central portion of Vance County, and did have for review, large scale maps of the current commissioner districts, maps showing the population density for Hispanic, African American and White populations by census blocks for County and charts showing the current population and racial population based on the 2020 Census date for each current district; and

WHEREAS, on October 11, 2021 a public input/scoping was held at the Townsville Volunteer Fire Department which is located in the northern portion of Vance County to gain public input, and did have for review, large scale maps of the current commissioner districts, maps showing the population density for Hispanic, African American and White populations by census blocks for County and charts showing the current population and racial population based on the 2020 Census date for each current district; and

WHEREAS, on October 18, 2021 a public input/scoping session was held at the Kittrell Volunteer Fire Department which is located in the southern portion of Vance County to gain public input, and did have for review, large scale maps of the current commissioner districts, maps showing the population density for Hispanic, African American and White populations by census blocks for County and charts showing the current population and racial population based on the 2020 Census date for each current district.

NOW, THEREFORE, BE IT RESOLVED by the Vance County Board of Commissioners as follows:

1. A finding of fact that the population among the Vance County electoral districts is NOT equal and the same shall be redrawn so that the quotients obtained by dividing the sum of the population of each district by the number of commissioners apportioned to the district are as nearly equal as practicable, and each district shall be composed of territory within a continuous boundary.
2. The boundaries for the seven Commissioner Electoral Boundaries are hereby amended by replacing the current descriptions with the Electoral District Boundary descriptions attached hereto and the current map showing these boundaries with the new map entitled "ElectoralDistrictsOfficialMap_2021_96x170.pdf."
3. This amendment redefining the electoral district boundaries shall be effective upon adoption and shall apply to the 2022 Elections of Districts 3, 4 and 7.
